

MATHLETICS 2017

Mathletics is an optional programme we have offered to Woodstock School students for the past few years. This programme supports the Mathematics that your child's teacher is teaching in the classroom.

Every child at Woodstock School can purchase Mathletics.

This programme can be used in a number of ways;

1. As Mathematics homework (Each syndicate newsletter will inform you of the topics they are covering in the term, use this as a guide). It is recommended that they should spend 20 minutes on the programme at least 3 times a week.
2. Your child will be given opportunities to use Mathletics in the classroom if they have their username and passwords available, i.e. in their homework books or memorised.

Benefits of the programme are:

- It helps students enjoy and achieve outstanding results
- It is a competitive and challenging experience
- It covers all aspects of maths
- It responds to a student's weaknesses and strengths
- It has step by step animations to help and support students
- Weekly reports can be emailed to parents/caregivers
- Students instantly know if they are on the right track or not
- It is the World's most used maths website

The cost is \$32.00 per child.

(It normally costs a parent \$99 if purchasing independently.)

This gives your child access to Mathletics until 31st January 2018.

To use Mathletics on your iPad, iPhone or Android device, simply download the Mathletics app.

To purchase Mathletics, please login to our online payment scheme "Wrap it Up" to make a payment. You will need to create a parent account first in Wrap it Up if you have not already done this.

Please note, we will offer this opportunity to purchase the programme again in Term 2 (possibly at a slightly reduced price).

Orders close 28 February 2017
