We had Damian Puddle come and speak to us about a programme that will be run in our school called Taakaro Or-Active Wellbeing.

I will attach the information for this to the email.

We would love some ideas of questions that can be asked to the wider school community about what they see as an important area to get help with to improve the wellbeing of our students. This can be physical or mental. They are open to hearing anything you would like talked about.

Think of ideas about how we can get this information out to all whanau and care givers?
