

# **Te Akomanga Tekau ma Rima Te Papa Taiao**

## **The Room 15 Enviro Project**

Our Enviro Project is all about our own heritage, where we are from. We made a traditional dish, one that our family knows and eats. Some people made dishes from South Africa, others from Scotland, Hungary, Ireland and of course New Zealand! We shared the kai with the whole class. It was heaps of fun. Now we hope to plant a herb, a spice, fruit or vegetable that is used in our traditional dish in our own school garden. We are learning lots about the history of the food, where it comes from and why it is used.
